## Is your paving dirty, has weeds and needs a little TLC?

Our **Revive-ur-drive** team can transform your paving, bring it back to life and advise on simple long-term maintenance.

### PATTERN IMPRINTED CONCRETE

If your pattern imprinted concrete paving is more than three years old, it is likely to be in need of a spring clean. Once the paving has been thoroughly cleaned and treated for moss, algae or oil stains, we will apply a fresh coating of PICS High Solid Sealer will bring your paving alive again.

Revive-ur-drive can also attend to a variety of minor defects if required, and we will advise you on simple maintenance guidance for now and the future.

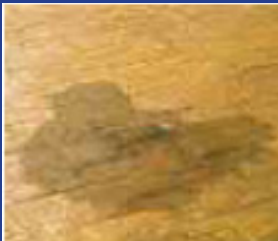

### BLOCK PAVING

Maybe the drive was laid before you moved in, or perhaps it's just that you never really thought about long term maintenance?

The facts are the same – wind, rain and the passing of time cause severe harm to block paved drives. Weeds establish themselves through the smallest of gaps and your once proud paving looks in need of attention.

**No more weeds**

**Stop all stains**

**Improved Appearance**

**Protection**

### PICS APPROVED CONTRACTOR

You need the ultimate protection that only PICSEAL (approved contractor) can offer. When all the preparations are complete and the PICSEAL has been applied it's like having brand new paving!

**protect  
and preserve**

**enhances  
performance**

**refurbish  
and renew**

**cleaned  
and sealed**

**oil resistant**

**driveways  
and patios**

**PICSEAL  
approved  
contractor**

I have a **driveway**   
**patio**   
**pathway**
